whitespacedesigner.com

hello

I am currently studying Graphic Communications & Printing Technology at Thaddeus Stevens College in Lancaster, PA. I will be entering my final year in the Fall of 2016. My greatest strengths lie in page layout, logo development, and digital photography. In order to carefully balance functionality with visual impact, I am constantly experimenting with my layouts. I am always eager to try something new, and I look forward to applying my education and experience to real world contexts.
